Gentrit Rashiti

Software Engineer

gentrit.rashiti2@gmail.com | Kosovo (CET) | gentrit.tech | github.com/gentritr1 | LinkedIn

Profile

Software engineer with 5+ years building web and mobile products, from planning to production.

Education

UBT — Bachelor's degree — 2017 - 2020

Experience

Vianova — Software Engineer — May 2021 - Present

React · Vue.js · Nuxt.js · React Native · Laravel · TypeScript

- Built features end to end for a healthcare care-management platform.
- Developed Laravel APIs and improved report performance.
- Helped lead the move from Vue to React and onboarded developers.
- Contributed to a shared design system used across projects.
- Built and maintained web and mobile apps released on the App Store and Google Play.

Freelance — Frontend Engineer — 2024

Next.js · React · TypeScript · FastAPI

- Built web portals and dashboards for clients, from sign-in to the main product screens.
- Worked with clients and teams to define requirements and deliver on time.

Personal projects

Node.js · Next.js · PostgreSQL · Playwright

- Built and shipped full-stack apps, including a real-time multiplayer game.
